OBJECTIVES

Seeking a position as an Web Developer where my extensive experience will be further developed and utilized.

EDUCATION

Web Development

April 2015 — July 2015

New York Code + Design Academy

The New York Code + Design Academy offers hands-on, intensive workshops in web and mobile app development and UI/UX design. As per my concern I took Web-Development 100 to learn the HTML, CSS, JAVASCRIPT and JQUERY. And for the Back-End, I took Back-End 101 with the Ruby on Rails and Sinatra.

Diploma Mechanical Engineering

Mach 2004 — December 2006

S.T.B.S. collage of engineering

WORK EXPERIENCE

Multiverse Studios

November 2014 — March 2015

Front-End Web Developer

- Worked along side a team of developers and designers to develop versatile and responsive websites
- Turned PSD files into clickable and event driven HTML5/CSS3/jQuery pages
- Responsible for interacting with the client to better understand their need and deliver product of the highest caliber

EpatriotCRM, Surat, India

October 2013 — April 2014

Technical Recruiter

- My main responsibility was to search for the perfect candidate for the project at hand
- Used ODesk to find technical talent and profitable clients
- Developed fast and responsive web pages for some of our clients

SKILLS

HTML5, CSS3, JAVASCRIPT, JQUERY, BOOTSTRAP, RUBY, RUBY ON RAILS, SINATRA, T-SQL, SSRS, SSIS

HOBBIES

Coding , Music, sports, Traveling.
